Type Scale	size	line height	Guidlines				
Heading 1	50px	53px	● Aim to at least meet WCAG 2.1 level AA requirements.				
Heading 2	35px	41px	● Remove unnecessary styles, information, and decisions to reduce distractions				
Heading 1 tablet	40px	47px	● Maintain consistency by ensuring that similar elements look and work in a similar way				
Heading 2 tablet	30px	35px	● Use conventional design patterns that people are familiar with				
Heading 1 phone	30px	35px	● Break up information into smaller groups to clearly show relationships and speed up decision making				
Heading 2 phone	25px	28px	● Reduce the number and complexity of choices				
			● Make similar elements look and work in a similar way				
			● Aim to design interfaces in a modular way				
			● Avoid unnecessary lines, colours, backgrounds, and animations to create a simpler, more focused interface				
			● Use changes in opacity to indicate interaction states				
			● Make related elements look similar by giving them similar visual characteristics				
			● Create a design system				
			● Create a clear visual hierarchy to show the level of importance of information				

Blen Berhanu

I'm Software Engineer

Hello! I'm Blen Berhanu, a passionate software engineer with a love for problem-solving and building innovative solutions.

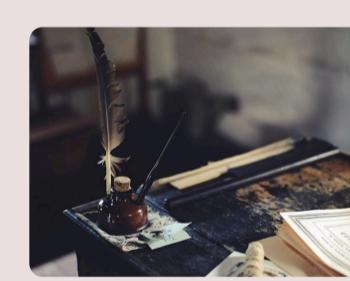

Coded by Blen Berhanu

ABOUT ME

Hobbies Literature

My favorite hobby✍️

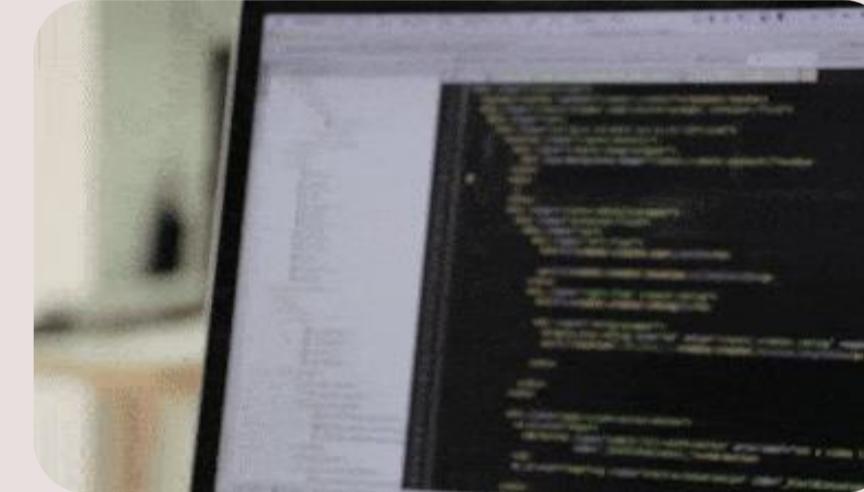

As a passionate writer, I find joy in weaving words into compelling narratives that resonate with readers. Whether it's crafting evocative poetry, thought-provoking essays, or captivating short stories, I embrace the power of storytelling to express emotions, share perspectives, and spark imagination.

Listen to 🎧 while reading my books.

Interest Coding

My favorite Interest💻

Coding is more than just a skill—it's a passion that allows me to bring ideas to life through technology. I enjoy exploring new programming languages, solving challenging problems, and building projects that make a difference. Whether it's designing user-friendly interfaces or optimizing complex algorithms, coding fuels my curiosity and drives my creativity.

Coded by Blen Berhanu

ADVENTURES

Places Visited

I have had the pleasure of visiting some of Ethiopia's most iconic locations. In Gondar, I explored the ancient castles that reflect the grandeur of Ethiopia's royal history. Lake Tana, with its calm waters and historic monasteries, was a serene getaway. The Blue Nile Falls, or "Tis Issat," was a truly awe-inspiring sight, with its powerful cascades and misty atmosphere.

Places to be visited

There are several incredible destinations in Ethiopia that I'm eager to explore. Bale Mountain Park, with its rich wildlife and stunning landscapes, is a top destination on my list. I'm also excited to visit Semien Mountain Park, known for its dramatic scenery and rare species. Ras Teferi's Castle in Ambo fascinates me, as I'm curious to learn more about its historical significance.
